Create a Draft Proposal

Please enter the following information to create a draft proposal. Please note that fields marked with a star (*) are **mandatory**.

It is highly recommended to submit your proposal as early as possible and at least 48 hours prior to the deadline of this call. This will avoid being confronted with incompatible local IT configuration settings shortly before the call deadline, when insufficient time would be left to handle it. There is no reason in delaying the submission for confidentiality concerns as the system does not allow any access to the proposals before call deadline or cut-off (other than to selected data that is part of the Submission and Evaluation of Proposals Assent Disclaimer). You can submit the proposal as many times as you wish up to the deadline. Every submitted version will replace the previously submitted one.

The screenshot shows a web interface for the 'Financial Capacity Assessment' tool. At the top, there is a title 'Financial Capacity Assessment' with a dropdown arrow. Below the title, a paragraph explains that the Commission may check financial viability before granting funding, and users can use this self-check tool. A prominent orange warning box contains a triangle icon and a 'Read First!' header, followed by a disclaimer: 'Disclaimer: The results of this simulation provide only non-binding indication. If a formal financial viability check by the Commission is required for a participation in a project, either the LEAR of your organisation will be invited to submit data via the Portal or the Commission will inform you about the exact steps to follow.' Below the warning box is a 'Start self-check' button. Further down, there is a section for 'Other R&I related funding opportunities' with a right-pointing arrow. At the bottom, there are two more sections: 'What's new' with a dropdown arrow, and 'Follow the latest progress and get involved:' with a dropdown arrow.

Open access to publications:
