

Ms. Hege ROGNØ

Member of the Clean Hydrogen Partnership Governing Board

Head of R&T Hydrogen&Low Carbon Fuels at EQUINOR ASA

Ms. Hege Rognø holds a MSc in Petroleum Engineering (NTNU) and is currently heading R&T within Hydrogen&Low Carbon Fuels in Equinor ASA, managing technology development within Hydrogen/Ammonia Value Chains and Low Carbon Fuels.

She has more than 35 years' experience from the Energy Industry within various Business Areas in Equinor. She has broad international experience having worked for Australia based Santos during the 1990ies and headed Equinor's office in Newfoundland from 2009-12.

Hege Rognø is chairing the board of the Sintef led LowEmission Centre, is a board member of Hydrogen Europe and European Turbine Network (ETN). Hege is confident that climate change can be combated by a smart combination of technology, political forcefulness, and industry wide collaboration.
