C-Energy 2020 Project
C-ENERGY 2020 is a 48 month Coordination and Support Action having **three specific objectives**:

- ensuring high quality Energy NCP services for Horizon 2020 and related programmes applicants;
- lowering entry barriers for Energy NCPs approaching EU Framework Programmes for R&I for the first time;
- Consolidating the network of Energy NCPs.

The Project, builds up on the experience of the previous C-Energy and C-Energy+ projects, kicked off on the **1st December 2014** in Rome and will be lasting until the **30th November 2018**

H2020 Energy
The Energy Societal Challenge in H2020, the EU R&I funding programme 2014-20, is **one of the most important in terms of earmarked budget** (€ 5,9 bn) over the next 7 years. This reflects the special attention the European Commission attaches to the shift towards an energy secure, competitive, climate resilient and low-carbon economy. This energy transition is underpinned by the **EU 2020 and 2030 energy and climate objectives** and is part of the longer term EU strategy for the emissions reduction by 2050 (80-95% compared to 1990 levels). The launch of the **European Energy Union** package in February 2015 confirmed that energy is a top priority for the European Commission that set the ambitious goal for the EU to become **'the world number one in renewable energies'**.

What is the role of NCPs?

National Contact Points (NCPs) provide guidance, practical information and assistance on all aspects of participation in Horizon 2020. Thanks to the NCPs of your country, you can have personalised support on the spot and in your own language if you want to submit a project proposal under Horizon 2020. Besides, you can benefit from NCP specific knowledge in a particular part of the Horizon 2020. Indeed, there are NCPs for Legal & Financial Issues, Access to Finance, SMEs, ICT, Infrastructures and Energy. In the map below you can find those are the NCPs specialised in the Energy field in your country.

[Find your H2020 Energy NCP on the MAP](#)

What is the NCP network?

NCPs are national structures established and financed by governments of the 28 EU Member States and the States Associated to the EU R&I Framework Programme. NCPs are also established in many non-EU and non-Associated Countries.

EU Funding

EU Funding beyond H2020

H2020 Programme

Open Calls

EU funding beyond H2020 in the energy field:

CEF Programme - Connecting Europe Facility Programme

An amount of €4.7 billion* will be made available for improving the trans-European energy infrastructure under the CEF Programme for the period 2014-2020. The majority of the funding under the CEF is expected to be made in the form of grants allocated following competitive calls for proposals. Innovative financial instruments will be available until a 10% cap (with possible flexibility up to 20%) of the budget.

*subject to final approval of the European Fund for Strategic Investments (in 2015)

http://inea.ec.europa.eu/en/cef/cef_energy/cef_energy.htm

COSME Programme

COSME is the EU programme for the Competitiveness of Enterprises and Small and Medium-sized Enterprises (SMEs) running from 2014 to 2020 with a planned budget of €2.3bn. COSME will support SMEs in better access to

Secure, clean and efficient energy & Euratom (FCH topics now added)

Dedicated Partner Search tool

This C-Energy2020 Partner Search Facility has been established by the network of H2020 Energy NCPs to help support its clients in establishing consortia. This web service is strictly focused on the open calls for proposals under the Energy area of the Societal challenge Pillar of Horizon2020 and the Euratom Calls (programme for nuclear research and training).
