# European Transport Network Alliance

The *NCP network* for the H2020 Societal Challenge 4 “Smart, green and integrated transport”.

FCH JU Infoday  
Brussels, 27/01/2020

Virginia Gómez Oñate,  
NCP Transport, Space & NMBP  
hub.brussels

## Who are the Horizon 2020 – Transport National Contact Points (NCPs)?

NCPs provide *guidance, practical information and assistance on all aspects of participation in Horizon 2020.*

- NCPs are [national structures](#) established by governments of the 28 EU member states and the states associated to the framework programme, as well as many non-EU and non-associated countries ("third countries").
- NCPs give [personalised support](#) on the spot and in applicants' own languages.

In general, NCPs offer the following basic services:

- Guidance on choosing relevant H2020 topics and types of action
- Advice on administrative procedures and contractual issues
- Training and assistance on proposal writing
- Distribution of documentation (forms, guidelines, manuals etc.)
- Assistance in partner search

In H2020, NCPs are [organized in networks](#) according to the theme they cover.

## ETNA 2020 CONSORTIUM

- |                       |   |              |   |
|-----------------------|---|--------------|---|
| 1) APRE (coordinator) |    | 9) TSB       |    |
| 2) ASE                |    | 10) IPPT PAN |    |
| 3) ABAE               |    | 11) ISERD    |    |
| 4) CDTI               |    | 12) FORTH    |    |
| 5) CVTISR             |    | 13) RPF      |    |
| 6) EI                 |    | 14) RTU      |    |
| 7) FCT                |   | 15) RVO      |   |
| 8) IFSTAR             |  | 16) SVEMO    |  |

In addition to the beneficiaries of the ETNA2020 consortium, NCPs from Member States and Associated Countries or Third Countries are involved in the project activities.

# ETNA EVOLUTION

ETNA2020 builds upon the activities of its precursors

## ETNA 2020 OBJECTIVES

Raise the **general** understanding of the EU Transport R&I landscape

Support the capacity building of **NCPs** & Upgrade their set of tools for assistance

Strengthen the **participation** of stakeholders to Horizon 2020 funding opportunities

Create & promote **networking** opportunities within the Transport constituency.

# ETNA 2020 ONLINE SERVICES

## PARTNER SEARCH SYSTEM

### FUNDING MAP DATABASE

- Database of complementary EU public and private funds
- <https://www.transport-ncps.net/funding-map-database/>

- Organisations' profiles' database
- EEN Business offers and requests (embedded)
- TRIMIS database (linked)
- <http://www.transport-ncps.net/partner-search/>

### EU ORGANISATIONS DATABASE

- This tool should enable you to identify what the roles of the different R&I transport-related organisations are and which are the ones that you should be engaging with.
- <https://www.transport-ncps.net/toolbox/>

### EUROPEAN TRANSPORT DOCUMENT REPOSITORY

- Repository of roadmaps, strategies, white papers, position papers published by relevant organisations/associations/platforms from the transport sectors
- <https://www.transport-ncps.net/toolbox/>

### FRAMEWORK PROGRAMME ANALYSIS TOOL

- Interactive analysis of the participation in Transport H2020 calls
- <https://www.transport-ncps.net/toolbox/>

ETNA 2020

# Electronic and paper **FACTSHEETS** on Horizon 2020

**ETNA 2020 INTELLECTUAL PROPERTY RIGHT (IPR) IN H2020**

Good management of Intellectual Property (IP) and Intellectual Property Rights (IPR) could be the ticket to innovation and competitiveness in Europe. Intellectual property takes an essential role in the entire life-cycle of R&D projects funded through Horizon 2020. Indeed effectively exploiting research results depends on the proper management of intellectual property, which should be part of the overall management of knowledge in the project.

**DIFFERENCE BETWEEN IP AND IPR**

<p><b>INTELLECTUAL PROPERTY (IP)</b></p> <p>Refers to creations of the mind, such as inventions; literary and artistic works; designs; and symbols, names and images used</p>	<p><b>INTELLECTUAL PROPERTY RIGHTS (IPRS)</b></p> <p>Legal rights granted with the aim to protect the creations of the intellect</p>	<p><b>Industrial Property Rights</b></p> <ul style="list-style-type: none"> <li>• patents</li> <li>• industrial designs</li> <li>• trademarks</li> </ul> <p><b>Copyright</b></p> <ul style="list-style-type: none"> <li>• Right of the author or creator</li> </ul>
---	--	---

**BACKGROUND VS. RESULTS**

**BACKGROUND** means any tangible or intangible input — from data to know-how, information or rights — that exists before the GA is signed and that is needed to implement the action or to exploit its results, for instance prototypes, cell lines, patents, database rights.

**RESULTS** means the action's tangible outputs (e.g. prototypes, micro-organisms) and intangible outputs (e.g. know-how, formulas), as well as related rights (e.g. patent rights and database rights). Results do not include the outputs of activities not described in Annex 1, produced before the action starts, during its course or after it ends.

**PROPOSAL STAGE**

Building a strategy for the exploitation of project results requires a reflection ahead of the submission of your project on Intellectual Property Management. To ensure your project success, must clearly answer the following question:

- How will results be protected?
- How will background and results be organised and managed?
- How will joint ownership be treated?
- How will the results be exploited?

**GRANT PREPARATION STAGE**

The main commitments concerning IP are agreed upon in this phase between the consortium and the European Commission, and among consortium partners. In fact, before the final signature of the Grant Agreement, consortia have the opportunity to fine-tune the details outlined in Annex 1 of the project proposal.

- The Grant Agreement (GA) defines the rights and obligations related to the project, between beneficiaries and the EC,
- The Consortium Agreement (CA) deals with the rights and obligations between the beneficiaries themselves, with regard to the execution of the project, specifically those related to the internal management of IP.

The CA is thus complementary to the GA and preliminary to its final signature, and IP provisions that are not included therein will
