

Dr. Danica Maljković

Member of the Clean Hydrogen Partnership Governing Board

CTO, DOK-ING Indeloop.

Member of the Board of Directors at Hydrogen Europe.

President of Hydrogen Association at Croatian Chamber of Economy.

Dr. Danica Maljković brings 20 years of experience in the energy sector, specializing in hydrogen economy, renewable energy, and energy efficiency. As a scientist, she has detailed knowledge of the technology, and after working many years for the state energy institute, she also understands intricate regulatory affairs. With such complementary qualifications in the field, Danica successfully managed 50 projects across Europe, particularly in geothermal, biomass, biogas, and solar thermal energy.

Today, Danica is the CTO of DOK-ING Indeloop, clean tech start-up based in Zagreb, Croatia. Since 2021 she is also the President of the Association for Hydrogen Economy in Croatian Chamber of Commerce. Danica holds a PhD in Power Engineering and a Master degree of Mechanical Engineering, together with an MBA in Energy Economics.
