

Charlotte Roule

Member of the Clean Hydrogen Partnership Governing Board

Charlotte Roule is CEO of Storengy and President of the Gas Storage Europe association. She is also Group Vice President, Hydrogen, of ENGIE, in charge of transversal hydrogen coordination.

With 20+ years of experience in the energy sector, she was Chief Strategy Officer of the ENGIE group until 2023, in charge of strategic dialogue and competitive intelligence, coordination of the long-term vision and energy transition scenarios, and supervision of major investments. Prior to this, she was CEO of Storengy UK, and then CEO of ENGIE China where she developed projects focusing on clean energy (mainly solar) and clean solutions for cities and industries such as district cooling and electric mobility.
