Projects presenting posters at
FCH JU's Programme Review Days 2016

List of projects ordered by panel

Project	Panel
3EMOTION	1 - Technology validation in transport applications
CHIC	1 - Technology validation in transport applications
H2ME	1 - Technology validation in transport applications
HAWL	1 - Technology validation in transport applications
HIGH V.LO-CITY	1 - Technology validation in transport applications
HYCARUS	1 - Technology validation in transport applications
HYFIVE	1 - Technology validation in transport applications
HYLIFT-EUROPE	1 - Technology validation in transport applications
HYPER	1 - Technology validation in transport applications
HYTEC	1 - Technology validation in transport applications
HYTRANSIT	1 - Technology validation in transport applications
MOBYPOST	1 - Technology validation in transport applications
NewBusFuel	1 - Technology validation in transport applications
PURE	1 - Technology validation in transport applications
SAPIENS	1 - Technology validation in transport applications
SUAV	1 - Technology validation in transport applications
SWARM	1 - Technology validation in transport applications
ARTEMIS	2 - Research activities for transport applications
AUTO-STACK CORE	2 - Research activities for transport applications
CATAPULT	2 - Research activities for transport applications
CATHCAT	2 - Research activities for transport applications
COBRA	2 - Research activities for transport applications
COPERNIC	2 - Research activities for transport applications
H2REF	2 - Research activities for transport applications
IMMEDIATE	2 - Research activities for transport applications
IMPACT	2 - Research activities for transport applications
IMPALA	2 - Research activities for transport applications
NANO-CAT	2 - Research activities for transport applications
PHAEDRUS	2 - Research activities for transport applications
PUMA MIND	2 - Research activities for transport applications
SMARTCAT	2 - Research activities for transport applications
VOLUMETRIQ	2 - Research activities for transport applications
ALKAMMONIA	3 - Technology validation in stationary applications
AutoRE	3 - Technology validation in stationary applications
CLEARGEN DEMO	3 - Technology validation in stationary applications
D2Service	3 - Technology validation in stationary applications
DEMCOPEM-2MW	3 - Technology validation in stationary applications
DEMOSOFC	3 - Technology validation in stationary applications
ENE.FIELD	3 - Technology validation in stationary applications
FCPOWEREDRBS	3 - Technology validation in stationary applications
INNO-SOFC	3 - Technology validation in stationary applications
ONSITE	3 - Technology validation in stationary applications
PEMBEYOND	3 - Technology validation in stationary applications
POWER-UP	3 - Technology validation in stationary applications
STAGE-SOFC	3 - Technology validation in stationary applications
TRISOFC	3 - Technology validation in stationary applications

Project	Panel
BEINGENERGY	4 - Research activities for stationary applications
CISTEM	4 - Research activities for stationary applications
DEMSTACK	4 - Research activities for stationary applications
DIAMOND	4 - Research activities for stationary applications
ENDURANCE	4 - Research activities for stationary applications
EURECA	4 - Research activities for stationary applications
EVOLVE	4 - Research activities for stationary applications
FERRET	4 - Research activities for stationary applications
FLUIDCELL	4 - Research activities for stationary applications
HEALTH-CODE	4 - Research activities for stationary applications
LIQUIDPOWER	4 - Research activities for stationary applications
MATISSE	4 - Research activities for stationary applications
METSAPP	4 - Research activities for stationary applications
NELLHI	4 - Research activities for stationary applications
PROSOFC	4 - Research activities for stationary applications
REFORCELL	4 - Research activities for stationary applications
SAPPHIRE	4 - Research activities for stationary applications
SCORED 2:0	4 - Research activities for stationary applications
SECOND ACT	4 - Research activities for stationary applications
T-CELL	4 - Research activities for stationary applications
ARTIPHYCTION	5 - Hydrogen production, distribution and storage: research and validation
BIONICO	5 - Hydrogen production, distribution and storage: research and validation
BIOROBUR	5 - Hydrogen production, distribution and storage: research and validation
BOR4STORE	5 - Hydrogen production, distribution and storage: research and validation
COMETHY	5 - Hydrogen production, distribution and storage: research and validation
DON QUICHOTE	5 - Hydrogen production, distribution and storage: research and validation
EDEN	5 - Hydrogen production, distribution and storage: research and validation
ELECTRA	5 - Hydrogen production, distribution and storage: research and validation
ELYntegration	5 - Hydrogen production, distribution and storage: research and validation
HELMETH	5 - Hydrogen production, distribution and storage: research and validation
HyBalance	5 - Hydrogen production, distribution and storage: research and validation
HYDROSOL-PLANT	5 - Hydrogen production, distribution and storage: research and validation
HYTRANSFER	5 - Hydrogen production, distribution and storage: research and validation
INSIDE	5 - Hydrogen production, distribution and storage: research and validation
MEGASTACK	5 - Hydrogen production, distribution and storage: research and validation
NOVEL	5 - Hydrogen production, distribution and storage: research and validation
PECDEMO	5 - Hydrogen production, distribution and storage: research and validation
SElySOs	5 - Hydrogen production, distribution and storage: research and validation
SOL2HY2	5 - Hydrogen production, distribution and storage: research and validation
SOPHIA	5 - Hydrogen production, distribution and storage: research and validation
UNIFHY	5 - Hydrogen production, distribution and storage: research and validation
CERTIFHY	6 - Cross-cutting
FIRECOMP	6 - Cross-cutting
HY4ALL	6 - Cross-cutting
HYACINTH	6 - Cross-cutting
HYCORA	6 - Cross-cutting
HYPACTOR	6 - Cross-cutting
HYRESPONSE	6 - Cross-cutting
HySEA	6 - Cross-cutting
IRMFC	6 - Cross-cutting
KNOWHY	6 - Cross-cutting
MATHRYCE	6 - Cross-cutting
SOCTESQA	6 - Cross-cutting
STACKTEST	6 - Cross-cutting
SUSANA	6 - Cross-cutting
